COVID-19 Prevention Protocol

Masks

- Masks are optional indoors for our vaccinated teachers, except during drop off and pick up when masks are required for all adults.
- Masks are required indoors for parent helpers and adult visitors to the school, including during drop off and pick up. Families are discouraged from lingering in the small entryway of the school.
- Masks are optional indoors for students.
 - Current CDC Covid-19 Guidance for Operating Early Care and Education/Child Care Programs states that masks should be worn indoors by all individuals (ages 2 and older) who are not fully vaccinated.

Physical Distancing

- Teachers and parent helpers will foster physical distancing among students indoors whenever possible.

Sanitation

- Students will wash hands immediately upon arrival. Hand washing and sanitizing will be performed on a regular basis during the school day.
- On your snack day, please send in large snack packages and juice bottles (not individual packages or juice boxes), as it is easier for these items to be distributed to students in a sanitary manner.
- Please send lunch items in packaging that students can open and close independently.
- The school is cleaned thoroughly every Wednesday and Saturday. High-touch surfaces will be cleaned daily.

This policy may be modified during the school year in accordance with updated guidelines and mandates, and families will be notified of any changes.
